

## Summary Information

**Would you consider this a priority site?** Why is it a priority? Is fish passage and/or erosion the main problem? Provide overall comments about the function and condition of the crossing.

**Would you recommend a future visit to this site?** Are there any characteristics that appeared to be significant, but were difficult to measure? What kind of follow-up would you recommend?

**Were any non-native invasive species observed at the site?** Record the names of any invasive species you observe. If you are not sure about a species identification, take a picture or save a specimen.

## Site Sketch

Draw an overhead sketch of crossing. Be sure to mark North on the map and to indicate the direction of flow. Include major features documented on form, such as erosion sites, multiple culverts, scour pool, impounded water, etc. Here is an example:
